

Programming Rubric

Criteria	Novice 50%	Developing 70%	Mature 85%	Master 100%
Code Functionality 30% Weight	Completed 0-69% of the requirements; program does not execute due to errors, and/or was not delivered on time.	Completed 70-89% of the requirements; program executes with minimal errors, and was delivered on time.	Completed 90-99% of the requirements; program executes without errors, and was delivered on time.	Completed 100% of the requirements; program executes without errors, and was delivered on time.
Efficiency and Use of Language Features 20% Weight	Poor use of functions, syntax, and language features. Meets language features with many errors.	Use of functions, syntax, and language features is present and somewhat identifiable. Meets language features with some errors.	Good use of functions, syntax, and language features. Meets language features with few errors.	Excellent use of functions, syntax, and language features. Meets language features without errors.
Documentation 10% Weight	Code is unorganized, poorly documented, comments have many errors in grammar, semantics, and spelling. Code attribution is not present and/or authorship is missing.	Code is somewhat neat, documented, and comments have some errors in grammar, semantics, and spelling. Code attribute is not present and/or authorship is not clearly annotated.	Code is neat, well documented, and code comments have few errors in grammar, semantics, and spelling. Code attribute is present and/or authorship is clearly annotated.	Code is neat, well documented, and code comments are free of grammar, semantics, and spelling errors. Code attribution is present and/or authorship is clearly annotated.
Assignment Specific Compliance 40% Weight	Complies with few or none of the assignment instructions and/or guidelines. Many errors present.	Complies with some assignment instructions and/or guidelines. Some errors present.	Complies with most assignment instructions and/or guidelines. Few errors present.	Complies with all assignment instructions and/or guidelines. No errors present.
